- Design and communicate from user perspective using clear terminology

Our Purpose

Partnering with our people to make a positive difference in their well-being

US Medical Options

Medical options vary based on where employees live

Build Your Own

\$1,000 and \$1,500 deductible Consumer Driven Health Plan options with
\$500 HP-funded Health Reimbursement Account (HRA);
\$500 PPO option (no HRA)

HMO, EPO options

Must use the plan's provider network

Comprehensive Medical Plans in
non-Build Your Own areas

No Coverage (if covered elsewhere)

Success With On-Site clinics

Health Clinics opened at major U.S. sites and India

- Example of integrating wellness into broader health strategy and on-site services
- Strong partners selected to run the clinics: Take Care/Walgreens (U.S.) and Apollo (India)
- Offers employees quality care, discounts and convenience
- Strong feedback and growing utilization as word-of-mouth and promotions build awareness

Strong success in India

- Clinic launch in 3 centers in Bangalore
- Accessible to 90% of local India employees
- Competitive advantage as few employers offer this benefits
- Engagement and employee productivity driver

Building momentum in U.S.

- Offered in 3 major US sites
- Steady growth in usage
- 40% of eligible employees have used the clinics
- High satisfaction rates
- Strong integration with health plans: Aetna, HMO Blue Texas, Kaiser and UnitedHealthcare

Sample clinic initiatives

- Skin cancer screenings
- Expanded access for children
- Lunch 'n learns
- Biometric screenings
- Flu shots
- Stanford partnership

U.S. HP On-Site Clinic Touch Points

HP Health Centers play an important role in our broader health and wellness strategy

Sample Marketing Plan

“Spring Into Summer”

Make It Easy! Create **new** reasons to visit a Health Center!

March: On Your Mark...	April: Get Set...	May: Go!
<ol style="list-style-type: none"> 1. Info audit of HP websites 2. Finalize messages and success measures 3. Assessments prior to beginning the Global Wellness Challenge 	<ol style="list-style-type: none"> 1. Test marketing plan with groups in TX and CA 2. Coordinate Health Center marketing with new HP Way brand 3. Colon and prostate cancer risk assessments 	<ol style="list-style-type: none"> 1. Coordinate Open Houses with free “peak flow” screenings 2. Make It Easy . . . “how to make an appointment!”
Media: Detailed media plan	Media: New visual identity and market-tested, refined media plan	Media: New Hire promotion along with campaign to rename Centers (on-site sign-up)
June: Go!	July: Go!	August: Go!
<ol style="list-style-type: none"> 1. Recipe for a healthy summer: convenient, cost-effective care from trusted providers 2. Make It Social . . . and fun! 	<ol style="list-style-type: none"> 1. Summer checkup 2. Skin cancer screenings “Protect the skin you’re in” 3. Do It . . . for your family! 	<ol style="list-style-type: none"> 1. For you, focus on biometric screenings 2. For your family, get back-to-school ready with immunizations and physicals 3. Keep It Fresh . . . and meaningful!
Media: Poster series on cost, convenience, and quality	Media: Wallet card Leader tips (from Meg/Tracy)	Media: Viral email and Progress Report—The State of HP Health

Fall on-site clinic special events:

- Flu shots
- Biometric screenings
- Mammograms

Recent Clinic Communications

97% of your peers who have been to the HP Health Center love the convenience of on-site medical care.

Here's what they told us:

“ I was thankful the health center was on-site. I was seen immediately and treated right away. By evening I was feeling 200% better. ”

If all doctors and nurses (and receptionists, too!) had these characteristics, more individuals would seek medical assistance. I give them an A*.

Doctors are always available, usually the same day/morning after calling. ”

We're investing in you!

The HP Health Center is your go-to place for confidential, convenient, personalized, and low-cost medical care.

Keep these reminders handy so you can take advantage of one of HP's best benefits.

For your wallet:

Your HP Health Center...It's the place to be seen.

Make an appointment:

Medical care when and where you need it.
Your HP Health Center

\$5 office visits.
Healthy you, healthy wallet!

Integrating with Health Plans

Flexible and creative health plan partners are key to success

Challenges

- Multiple health plans
- Need to work within HMO structures
- Inconsistent level of health plan sophistication and flexibility
- Claim integration, especially with account-based plan designs (CDHP)

Lesson Learned

- Not possible to designate health center physician as PCP within capitated HMO models
- Specialist referral restrictions may exist with a capitated or group-based HMO
- On-line provider tools need to display network providers
- Special copay and claims accounting processes not compatible with auto adjudication

New Approaches

- Integration working well on large self-insured plans
- HMO participants need to select a PCP from their health plan and use that PCP for specialist referrals
- Special copay and claims accounting processes require ongoing oversight to avoid errors

Holistic Approach to Integrating with Health Plans

Claims Payment

Health Plan
Clinics established as customized providers to accommodate special benefits

On-site Clinics
Clinic submits claims to health plan to maintain full data picture and OOP integration

Pharmacy

Collaboration between health plan and on-site clinic pharmacists on formulary, new drugs and clinical programs

Focus on prescribing generics and preferred drugs, referral to health plan programs

Health Plan Resources

Availability of clinics emphasized through customer service and dedicated care management team

Referral to health plan resources, such as condition management programs and EAP

Providers

Accountable Care pilot to lower costs and improve health outcomes, integration with clinic for ongoing health monitoring

Access to patient records for holistic view of patient's health, priority access referrals

Provider Partnership

Accountable care pilot with UHC and Palo Alto Medical Foundation (PAMF)

Clinically intensive population management solution designed to:

- Increase efficiency of health care resources
- Improve quality of patient care around common diagnoses, early intervention and gaps in care
- Create single reporting mechanism to share clinical data
- Integrate operating platforms and data sources
- Reduce medical cost trends
- Align provider incentives based on savings and quality metrics achieved in the pilot
