## BENCHMARKING

### **Watch for the 2023 Mercer-NAWHC National Worksite Health Center Survey Request**

NAWHC will join our member and partner Mercer in the next 10 days in sending out the 2023 Worksite Health Center National Survey to employer and union sponsors of onsite and near-site centers. This is THE LARGEST SOURCE of key benchmarking data on the operations, management, staffing and key issues impacting worksite centers of all sizes and industries.

The survey will be sent not only to our employer members, but also to our third party and health provider service providers who are asked to send to their clients.

No individual responses will be identified, but all firms participating will receive an aggregate report on the findings. We also will present the results at the Sept. 7-8, 2023, NAWHC Annual Forum in Minneapolis, MN.

### **MSK Services and Staffing Benchmarking Survey**

Speaking of surveys, if you haven't done so already and musculoskeletal (MSK) conditions are high on your cost and prevalence list, be sure to complete our benchmarking survey on *MSK Services and Staffing in Worksite Health Centers* by April 15<sup>th</sup>. Three responders will be randomly selected to receive a \$100 gift certificate.
